One bidder raised a query on the following: air conditioning piping installation; details and specifications of auxiliary works on electricals, PABX system, and telephone outlet connection; installation of air conditioning units; and details and specifications on panel or breaker provision and wiring of such units. Acquisition and installation of new air conditioning units are not included in the activity. Please note, however, that there may be instances where the piping system for such units affected by re-partitioning may be subject of relocation and other modifications. Considering the absence of existing comprehensive plans for the building, the exact location of the components subject of the query remain undetermined, and may only be discovered during the dismantling of old partitions and re-partitioning. A careful and comprehensive ocular inspection is needed to address these concerns.

Requests for conduct of ocular inspection may be referred to Ms. Linell F. Montuerto (telefax: 89291158, email: lfmontuerto@ddb.gov.ph) of the Administrative and Financial Management Division
